# Award Data Archive

Welcome to the **Award Data Archive**, which features major agencies' award transaction data for full fiscal years. They're a great way to get a view into broad spending trends and, best of all, the files are already prepared — you can access them instantaneously.

New files are uploaded by the 15th of each month. Check the Data As Of column to see the last time files were generated. **Full files** feature data for the fiscal year up until the date the file was prepared, and **delta files** feature only new, modified, and deleted data since the date the last month's files were generated. The `correction\_delete\_ind` column in the delta files indicates whether a record has been modified (C), deleted (D), or added (blank). To download data prior to FY 2008, visit our [Custom Award Data](#) page.

Ready to grab your data? Complete the form below.
